

Since our business was formed in the early 80's we have been specialists in the area of Self Invested Pensions.

We provide the initial planning, documentation, registration and Trustee services to create a SSAS. Once set up we continue with a rounded service in terms of administration, ongoing maintenance and consultancy. There is also the added advantage of allowing businesses to join together with David Booler Trustees Limited, as Trustees of their own plan. This allows us to build a pension specifically tailored to your business instead of trying to make your requirements fit within an “off the shelf” contract.
